

Serial No. 10/657,884

Amendments to the Specification

On page 6, before "DETAILED DESCRIPTION OF THE INVENTION", please insert the following new paragraph:

Figure 6 provides a perspective view of an embodiment of the present invention wherein the tip has only one guide.

Please amend the paragraph beginning on page 9, line 26, and ending on page 10, line 3, as follows:

It is therefore possible to provide the tip with only one guide, located at one edge, as illustrated in Figure 6. This alternative is intended to be included within the scope of the present invention. If the tip has only one guide, however, the orientation of the tip does become important, and one must be sure that the guide is positioned to abut the desired edge of the base.
